

# Contactless Hygiene Tool

Stylish | Compact | Full Colour Branding 98 x 32 x 5mm

Small but mighty, the Contactless Hygiene Tool helps avoid touching surfaces when out in public that may have harmful bacteria laying on them. It can push elevator buttons and keypads at the ATM. Turn, pull, and lift door handles, and carry grocery bags out of the store. The slim, compact design is easy to keep in your pockets, bags, purses or even on your keyring. With full colour print on one or both sides of the Contactless Hygiene Tool, your brand will be eye-catching on this unique product.

- Avoid touching surfaces that may have harmful bacteria on them
- Open doors, use cash machines and many more, touch free
- Compact design perfect for a key-chain
