

# LED WIRELESS SUCTION POWERBANK

Our new LED powerbanks are the next step to making your brand glow! Coming with an impressive 8,000mAh battery capacity- the LED powerbanks will light up when connected to power, bringing your brand to life. The powerbank features a Type-C, Lightning and USB connection ports, supporting both wireless and wired charging. The LED Wireless Suction Powerbank will stick the rear of your device using powerful suction pads, making this perfect for charging on the go- whilst also doubling up as a phone stand with a foldable kickstand built into the body of the powerbank. With a sleek and compact design, the LED powerbanks will fit neatly into your bag or pocket for charging your devices on the move.
